Introduction to the Solubility of Solids in Liquids	xxv
Acknowledgement	xxxv
Note that the first page of each section below gives the system contents by formula.	
1. The solubility of titanium halide and oxyhalide substances	1
1.1 Titanium fluoride	2
1.2 Salts of hexafluorotitanate(2-)	4
Evaluation of $K_2TiF_6 + H_2O$ system	13
1.3 Titanium chloride, dichloride	26
trichloride	28
tetrachloride	33
1.4 Dichlorooxotitanium	40
1.5 Salts of pentachlorotitanate(2-)	42
1.6 Salts of hexachlorotitanate(2-)	46
1.7 Titanium bromide	51
1.8 Titanium iodide	58
2. The solubility of zirconium halide and oxyhalide substances	59
2.1 Zirconium fluoride	60
Evaluation of $ZrF_4 + HF + H_2O$ system	61
2.2 Salts of pentafluorozirconate(1-)	74
2.3 Salts of hexafluorozirconate(2-)	81
Evaluation of $K_2ZrF_6 + HF + H_2O$ system	84
2.4 Salts of heptafluorozirconate(3-)	99
Evaluation of $(NH_4)_3ZrF_7 + H_2O$ system	99
Evaluation of $(NH_4)_3ZrF_7 + NH_4F + H_2O$ system	102
2.5 Zirconium chloride	107
2.6 Dichlorooxozirconium	111
Evaluation of $ZrOCl_2 + HCl + H_2O$ system	112
2.7 Salts of hexachlorozirconate(2-)	142
2.8 Zirconium bromide	146
2.9 Dibromooxozirconium	148
3. The solubility of hafnium halide and oxyhalide substances	149
3.1 Hafnium fluoride	150
Evaluation of $HfF_4 + HF + H_2O$ system	150
3.2 Salts of pentafluorohafnate(1-)	159
3.3 Salts of hexafluorohafnate(2-)	162
Evaluation of $K_2HfF_6 + H_2O$ system	163
Evaluation of $Rb_2HfF_6 + H_2O$ system	168
Evaluation of $Cs_2HfF_6 + H_2O$ system	171
3.4 Salts of heptafluorohafnate(3-)	174
3.5 Hafnium chloride	176
3.6 Dichlorooxohafnium	178
Evaluation of $HfOCl_2 + HCl + H_2O$ system	180
3.7 Salts of hexachlorohafnate(2-)	209
3.8 Hafnium bromide	213
3.9 Dibromooxohafnium	216

Continued on next page . . .

4. The solubility of vanadium halide and oxyhalide substances	217
4.1 Vanadium fluoride	218
4.2 Difluorooxovanadium	219
4.3 Trifluorooxovanadium	221
4.4 Vanadium chloride, dichloro trichloro	223 224
5. The solubility of niobium halide and oxyhalide substances	225
5.1 Niobium fluoride	226
5.2 Niobium fluoride oxide	230
Evaluation of $\text{NbO}_2\text{F} + \text{HF} + \text{H}_2\text{O}$ system	230
5.3 Salts of hexafluoroniobate(1-)	237
5.4 Salts of heptafluoroniobate(2-)	239
5.5 Salts of hexafluorooxoniobate(2-)	244
5.6 Salts of hexachloroniobate(1-)	245
5.7 Niobium chloride, tetrachloro pentachloro	247 248
Evaluation of $\text{NbCl}_5 + \text{TiCl}_4$ system	253
5.8 Niobium chloride oxide	260
Evaluation of $\text{NbOCl}_3 + \text{NbCl}_5$ system	260
5.9 Niobium bromide	264
6. The solubility of tantalum halide and oxyhalide substances	265
6.1 Tantalum fluoride	266
6.2 Salts of hexafluorotantalate(1-)	270
6.3 Salts of heptafluorotantalate(2-)	272
Evaluation of $\text{K}_2\text{TaF}_7 + \text{HF} + \text{H}_2\text{O}$ system	272
6.4 Salts of octafluorotantalate(3-)	285
6.5 Tantalum chloride, tetrachloro pentachloro	286 287
Evaluation of $\text{TaCl}_5 + \text{TiCl}_4$ system	298
6.6 Salts of hexachlorotantalate(1-)	306
6.7 Tantalum bromide	308
6.8 Tantalum iodide	311
System index	312
Registry number index	320
Author index	324
